

Maximizing Investment Value for the Private Equity Community

3SIXO Advisors empowers private equity firms with an unbiased, third-party vehicle for identifying opportunities to improve underperforming investments, generating quality deal flow, and evaluating potential investments. Our knowledge and expertise allows us to provide valuable insight that lowers risk and translates into higher returns, better terms, and increased equity value.

Utilizing a proven methodology and subject matter expertise, 3SIXO Advisors can quickly evaluate a company's position in the marketplace and its growth prospects with relation to market conditions, management, customer penetration, and competitive pressures. By subjecting all potential investment opportunities to the same process and criteria, private equity firms will ensure consistency in decisioning and better position their investments to receive disproportionate returns.

Oversight, Growth, & Liquidity

The 3SIXO Advisors methodology was designed to identify and unlock corporate value. When applied to a firm's current portfolio, we can evaluate underperforming investments and develop turnaround or growth strategies to quickly improve ROI. Additionally, in preparation for liquidity, 3SIXO Advisors can provide analysis to determine the liquidity maximization strategy that will result in the greatest return.

Access to Quality Deal Flow

Our corporate clients and strategic relationships provide 3SIXO Advisors with access to a wide array of qualified investment opportunities. We work with middle market companies, fundless funds, private equity firms, and investment banks, all of which represent potential investments or acquisitions. Our middle market clients represent both public and private companies in a number of industries. 3SIXO Advisors is in a position to screen these opportunities and present those that match your investment risk criteria and desired return on investment.
